FROM THE PRESIDENT

Welcome to Eastern Florida State College

Thank you for your interest in Eastern Florida State College where our Bachelor Degrees, Associate Degrees and College Certificate programs provide the key preparation for educational and career success.

We have almost 30 Bachelor Degree tracks in Business, Health Care, Computer Technologies, Nursing and Education that give students excellent job opportunities after graduation in fast-growth job fields. Our Associate in Arts university parallel degree prepares graduates for an EFSC bachelor program or transfer to a university.

EFSC's many Associate in Science Degrees also provide a seamless transition to our Bachelor of Applied Science programs. Those A.S. programs, and our career certificates in health sciences and nursing, public safety and vocational fields, also provide the hands-on training to enter the workforce or retrain for the ever-changing requirements of business and industry.

Our programs are designed to meet your needs, including flexible online courses plus day and evening face-to-face and hybrid classes on our Titusville, Cocoa, Melbourne, and Palm Bay campuses.

We support your academic journey through a wealth of student services in areas such as academic advising, career planning, tutoring, and veterans and military affairs to help guide you from enrollment to graduation.

All of our students enjoy the benefits of an articulation agreement with the Florida university system, ensuring that credits transfer to the state's public universities, as well as similar agreements with numerous private institutions.

For example, Eastern Florida's "Direct Connect" partnership provides a seamless transition to the University of Central Florida. Transfer options also are available with nearby Florida Tech in Melbourne.

As you rely on this Catalog to plan your future, count on Eastern Florida faculty and staff to help you achieve your goals.

Dr. Jim Richey
President
