

AERONAUTICAL SCIENCE (ASC)

ASC 2949 Aerospace Internship**Credit Hours:** 1-3**Prerequisites:** Instructor approval required

This course provides an opportunity for students to practice and apply the skills gained in the aerospace program within an aerospace workplace. The internship enables students to develop and enhance practical skills, network with professionals, and prepare for a career in the field. Participation in this internship allows for further exploration of varied aspects of aerospace operations. This course may be taken a maximum of two times.
