

HORTICULTURAL SCIENCE (HOS)

HOS 2932 Selected Topics in Horticulture and Landscape Technology

Credit Hours: 3

Prerequisites: HOSC 2010 with a grade of "C" or higher

This selected topics course centers around topics of current or special interest to the student and instructor. The topics will vary depending on the interests of the student and faculty but will remain related to horticulture and landscape career fields. Students working with their instructors explore areas of interest that will advance their understanding, knowledge base, and skills in horticulture and landscape career and academic fields.
