

# LIBRARY AND INFORM STUDIES (LIS)

---

## **LIS 2004 Research Strategies for College Students**

**Credit Hours:** 1

Students will gain the knowledge, skills, and abilities to succeed in college-level research by identifying, evaluating, and using diverse information sources from the Internet and library databases. The course includes developing topics and thesis statements, creating search strategies, and critically evaluating and ethically citing sources. These research and critical thinking skills are crucial for success not only in college but also in the workplace.
