**Additional Limited Access Application Process Required:** No
**Program Testing Requirements:** Not Required
**Academic Community:** HSCI
**Program Code:** HSBS
**Classification of Instructional Programs (CIP) Code:** 51.2211
**Florida Department of Education CIP Code:** 1105122111

This program is designed to provide students with the necessary skills and knowledge to begin or advance their careers in the health sciences field. Concentrations in allied health science, biomedical science, biotechnology, medical imaging science, and veterinary nursing will prepare graduates for employment in public, private, and non-profit sectors.

Refer to the Bachelor of Applied Science (BAS) overview page to find information about admission, graduation, general education and other requirements. Students who need technical electives will work with a bachelor's advisor to determine the courses best suited to their plan of study.

**Specializations:** This degree has multiple specializations. Student must select one specialization to follow, and will receive the Applied Health Sciences BAS degree upon graduation. While students may take courses from more than one specialization, the specific degree will be awarded only once. Following are the specializations in the BAS Applied Health Science degree.

- Advanced Allied Health Specialization
- Biomedical Science Specialization
- Biotechnology Specialization
- Medical Imaging Sciences Specialization
    - Adult and Pediatric Cardiac Sonography Specialization
    - Informatics/PACS Specialization
    - Vascular Sonography Specialization
- Veterinary Technology Specialization

The Program and Admission Requirements chart lists specific admission requirements by program, such as if the program is limited access or requires a specific degree, certification or license, and if the program is financial aid eligible. The Program of Study page for each program will outline program-specific course and other requirements.

Visit the program page for more details and how to apply.
