

BACHELOR OF APPLIED SCIENCE - APPLIED HEALTH SCIENCES, MEDICAL IMAGING SCIENCES SPECIALIZATION

If you're a licensed sonographer looking to advance your education, Eastern Florida State College offers two options in the Medical Imaging: Sonography BAS Specialization. You can choose between the Vascular Sonography or the Adult and Pediatric Cardiac Sonography tracks.

Students will select one of the following options under the BAS - Applied Health Sciences, Medical Sciences Imaging Specialization:

- [Adult and Pediatric Cardiac Sonography Specialization](#)
- [Informatics/PACS Specialization](#)
- [Vascular Sonography Specialization](#)

Admissions requirements:

- Applicants must hold an A.S. in sonography from a CAAHEP accredited program.
- Applicants must have current ARDMS registration (any specialty) or ARRT certification in Sonography Primary
- Applicants must be in good standing with the American Registry of Radiologic Technologists, the American Registry of Diagnostic Medical Sonographers, or the Nuclear Medicine Technology Certification Board.

Refer to the [Bachelor Degree Programs](#) overview to find information about admission, graduation, general education and other requirements. Students who need additional general education or technical electives will work with a bachelor's advisor to determine the courses best suited to their plan of study.

Specializations: Several EFSC Associate in Science (A.S.) and Bachelor degrees have multiple associated specializations. Students must select one specialization, and will receive the specific A.S./BAS degree only one time. While students may take courses from more than one specialization, the specific degree will be awarded only once.
