

BACHELOR OF SCIENCE (B.S.)

Science Teacher Education has three specializations to choose from:

- Biology Teacher Specialization
- Chemistry Teacher Specialization
- Middle School Science Teacher Specialization

The Bachelor of Science in Science Teacher Education explores educational foundations and methods to prepare science educators to teach in secondary schools. It also explores the theory and practice of teaching science education. The objective is to prepare caring educators with an in-depth understanding of the biological sciences. Students who complete this program can earn professional teaching certification in teaching science.

Bachelor of Science in Nursing -RN to BSN

A fully online program, the RN to BSN curriculum is designed for RNs who have already earned their Associate in Science or an Associate of Applied Science degree in Nursing. This program is for current registered nurses who meet the admissions criteria and would like to continue their education to the Bachelor's level. The curriculum and coursework build upon students' fundamental nursing knowledge and skills and allow them the opportunity to expand beyond the clinical aspect of nursing.
