

STUDENT GOVERNMENT

Each EFSC campus has its own Student Government Association (SGA). The student organizations and clubs on each campus make up the SGA. They offer a wide range of activities that provide academic enrichment and personal fulfillment opportunities such as educational outings, community services, team building, concerts, art and craft fairs, dances, and intramurals. Contact a campus SGA office for information on starting or joining a club. The purpose of the SGA is to ensure broad student involvement in college committees, campus activities and college, campus, community events. Students will be represented by the elected Executive Board. Election of SGA Executive Board members occurs each spring. All registered students may vote for SGA Officers. The representatives are elected from the student body at large. All activities of student government are conducted in accordance with the established policy and procedures.
