

# TEST OF ADULT BASIC EDUCATION (TABE)

---

Each CTP career certificate program that is 450 hours or longer has associated basic academic skills (reading, mathematics and language) that are required for completion from each CTP program. Unless exempt by SBE Rule 6A-10.040 or 6A-10.0315 F.A.C., students enrolling in these state-designated programs are required to submit TABE scores, no more than two years old. Students must complete the TABE **within six weeks** of the beginning of their first term of classes. Students who have not completed the TABE by the end of the first semester will not be allowed to enroll in any program courses until the TABE is completed. Students who do not meet the required TABE score in any area can begin coursework in the certificate program, but must complete remediation of skills prior to graduation. To establish a remediation plan, students are encouraged to seek advice from the Academic Success Center staff to develop a personal review plan. Options include one on one tutoring, use of review materials, purchase of review materials, or utilizing an on-line material review program.
